

Sampling distribution of \hat{p} based 10 samples of size $n = 50$

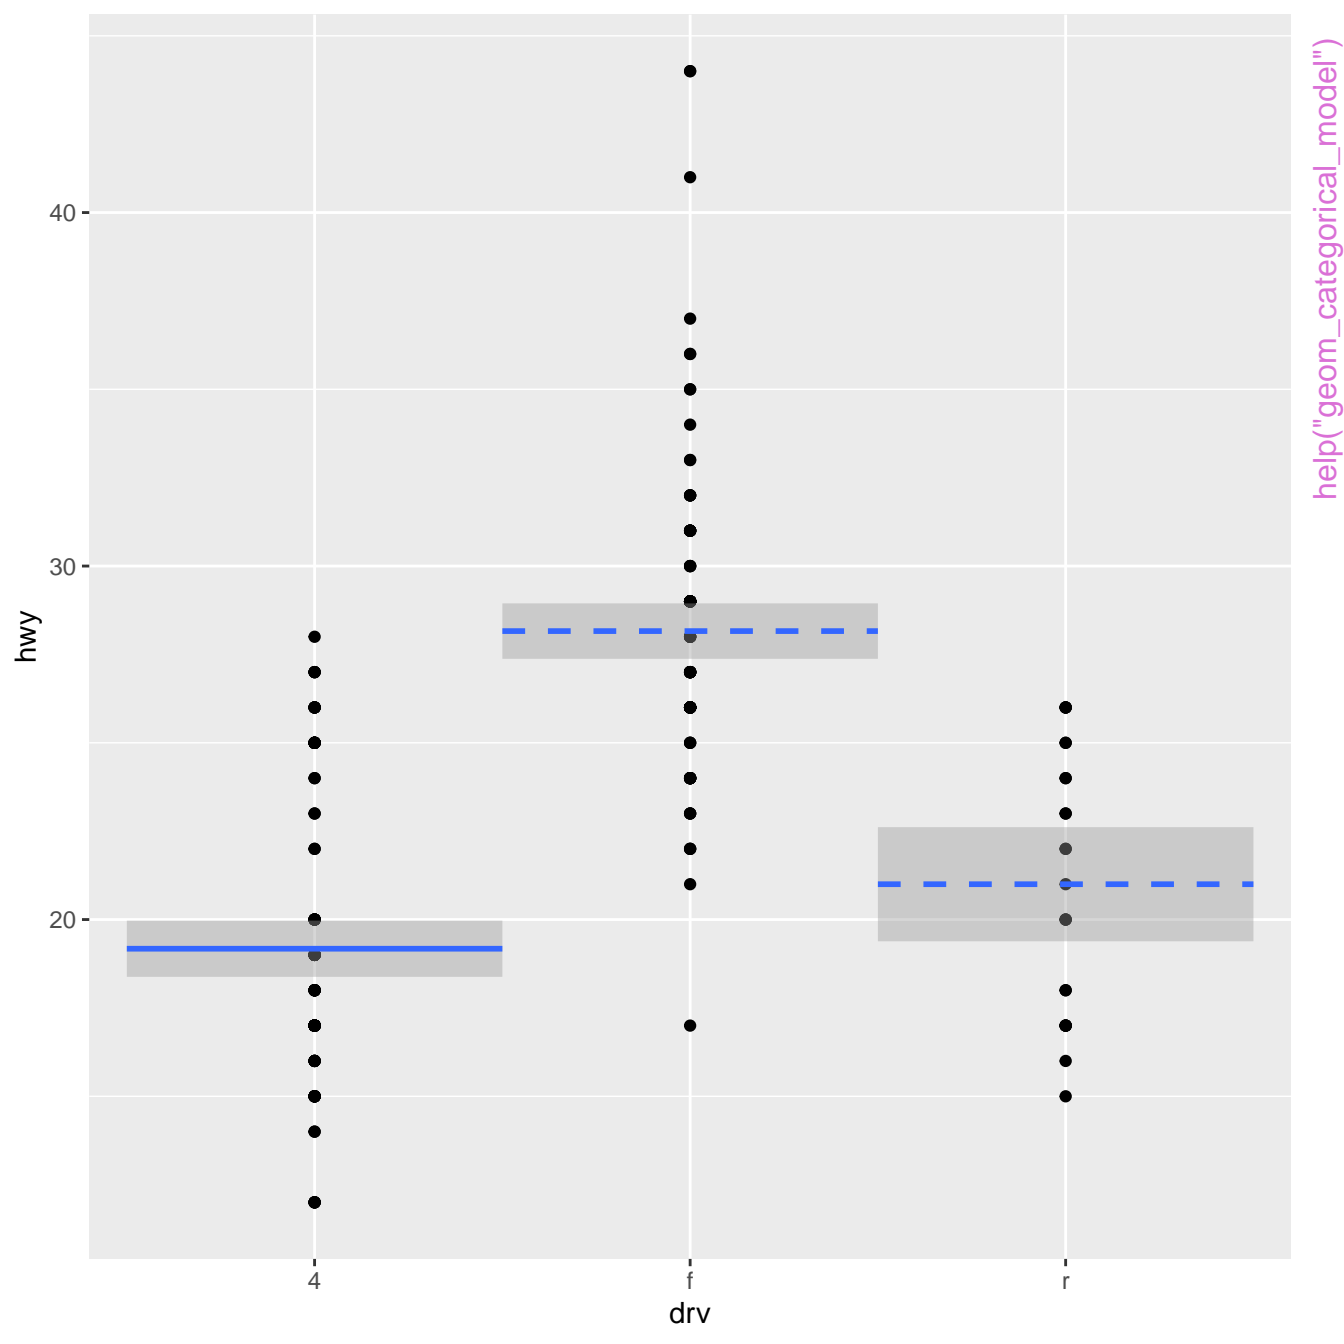

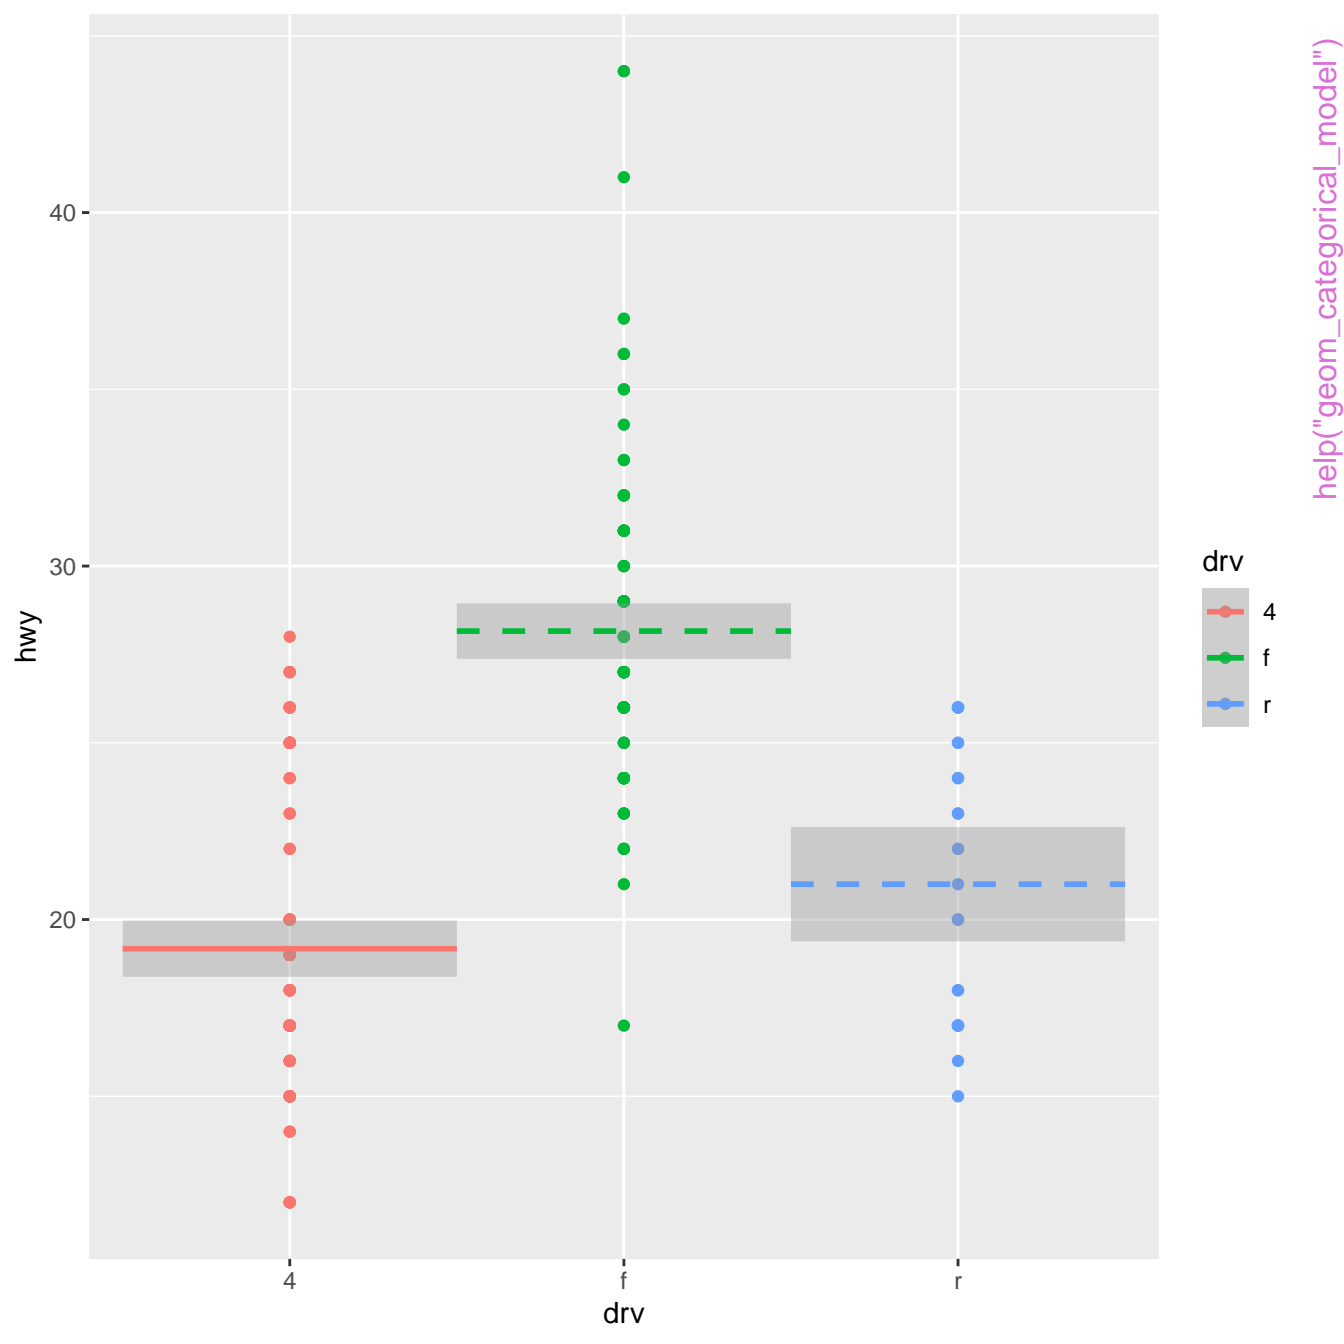

50 sampled bals from bowl

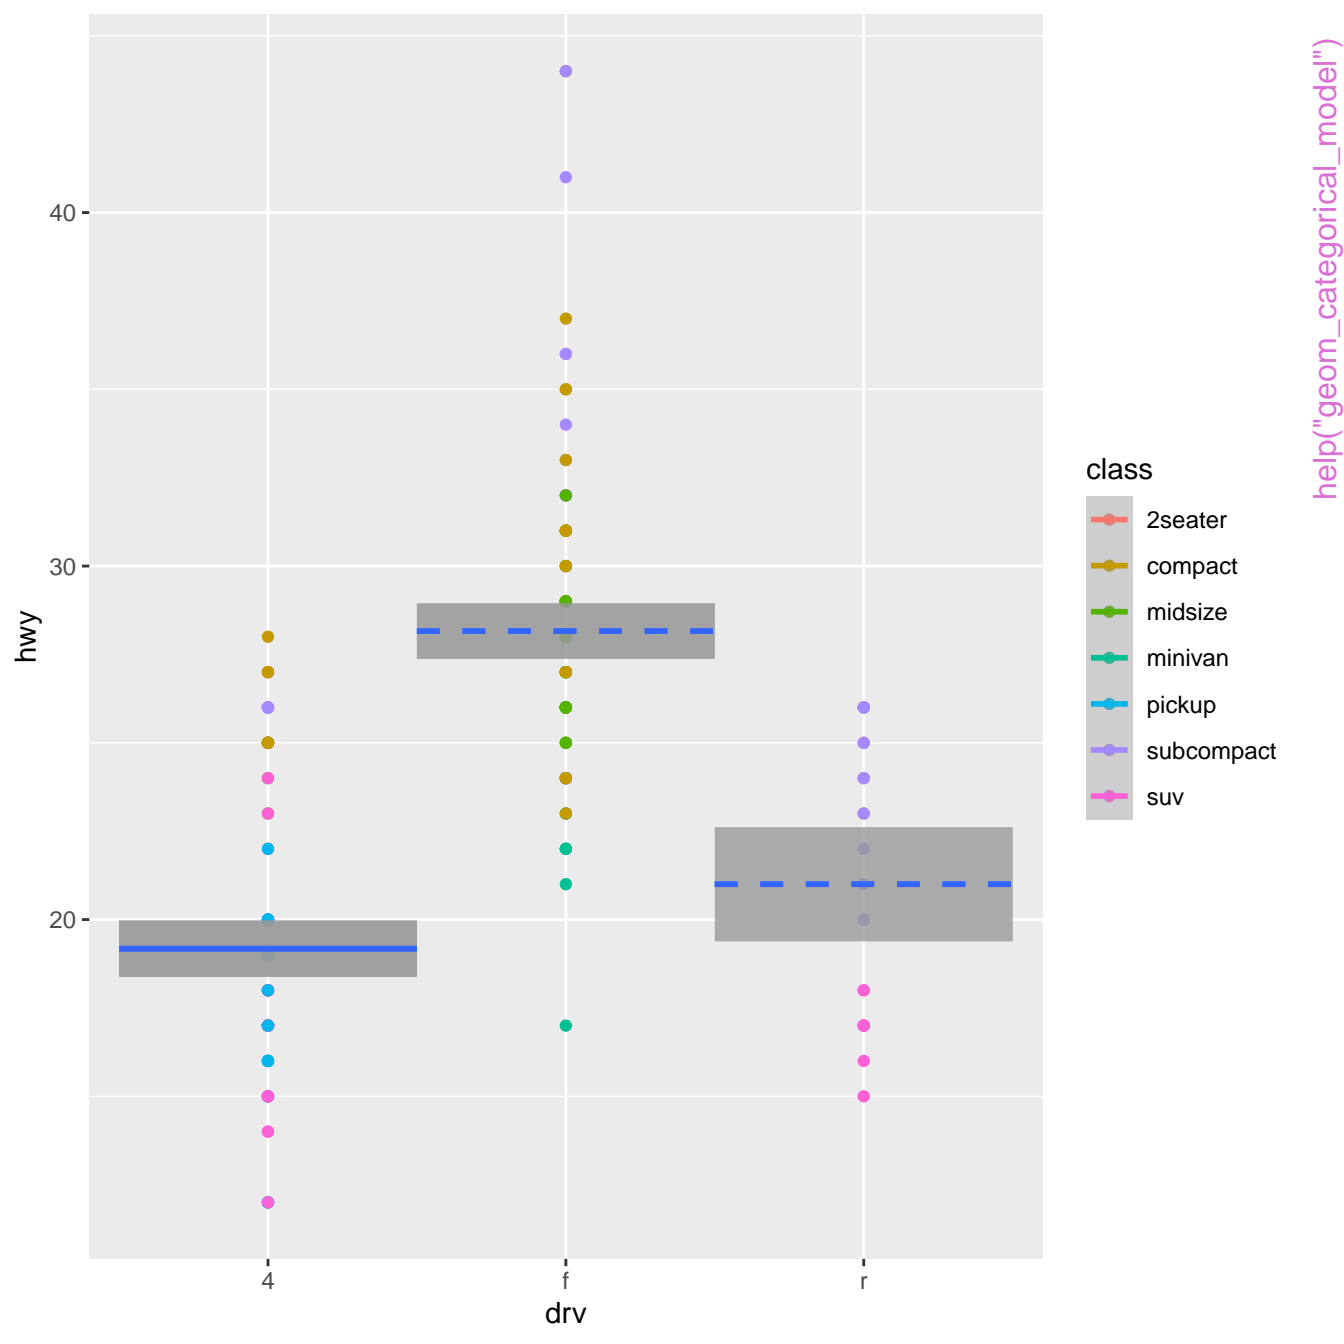

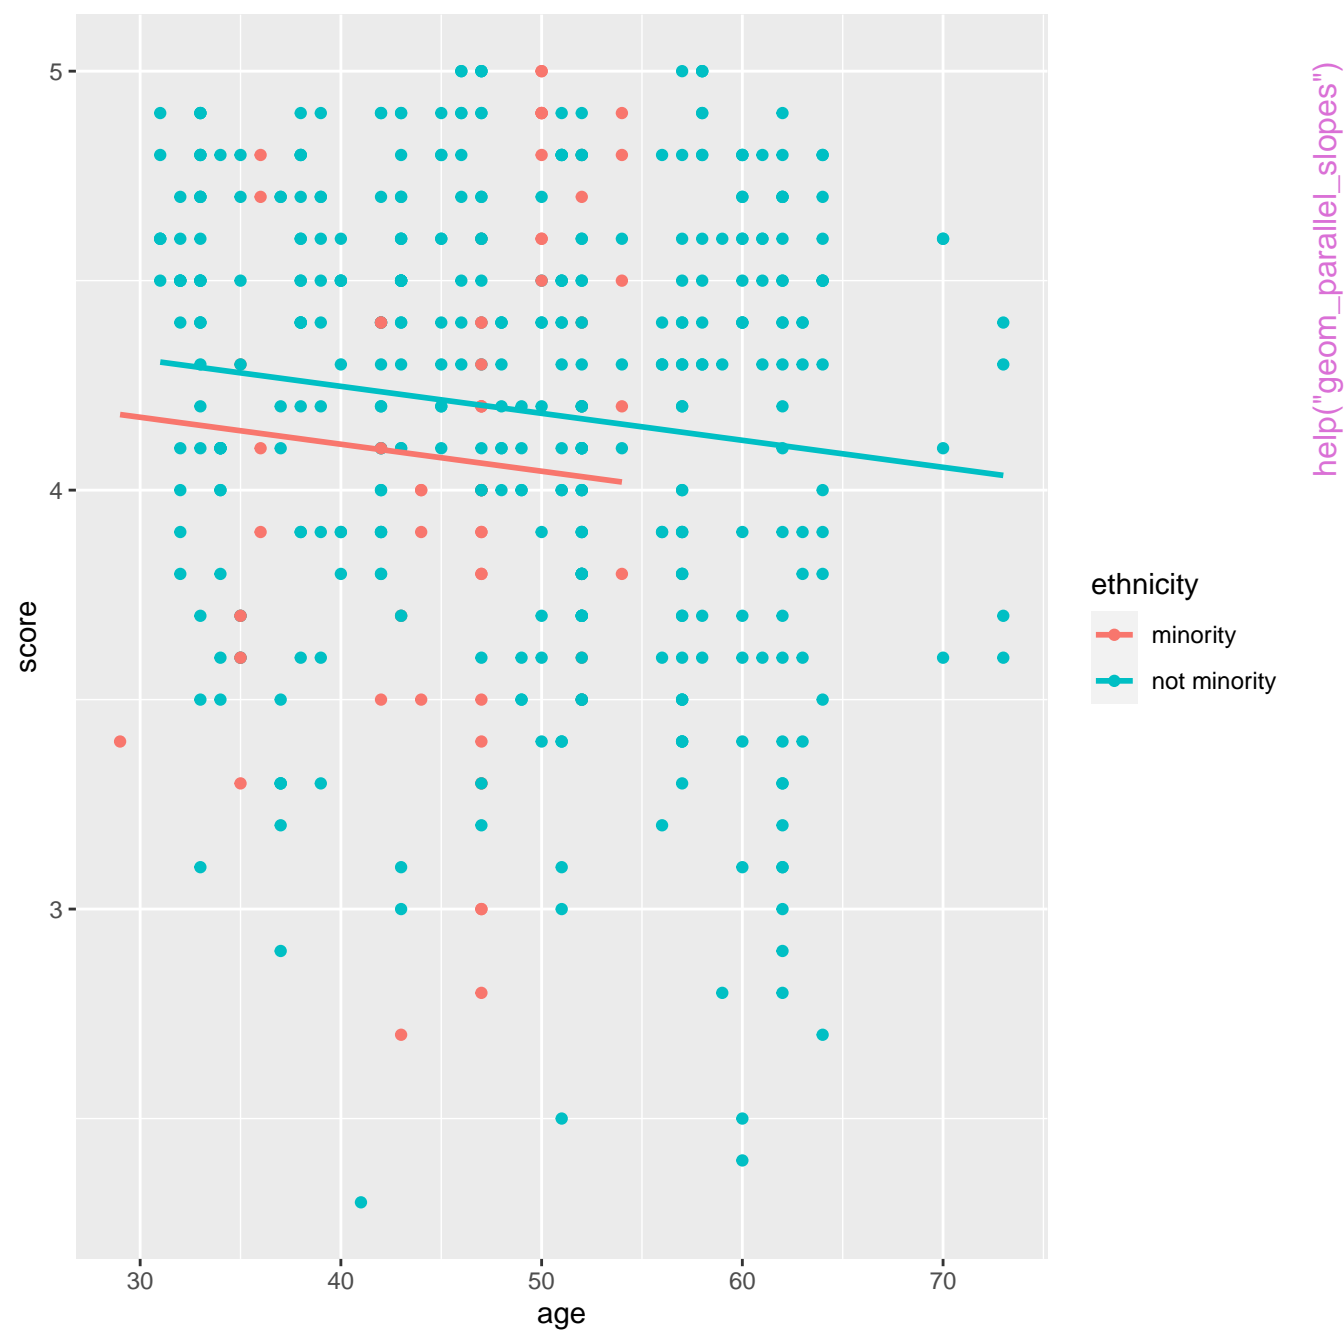

Sampling distribution of \hat{p} based 10 samples of size $n = 50$

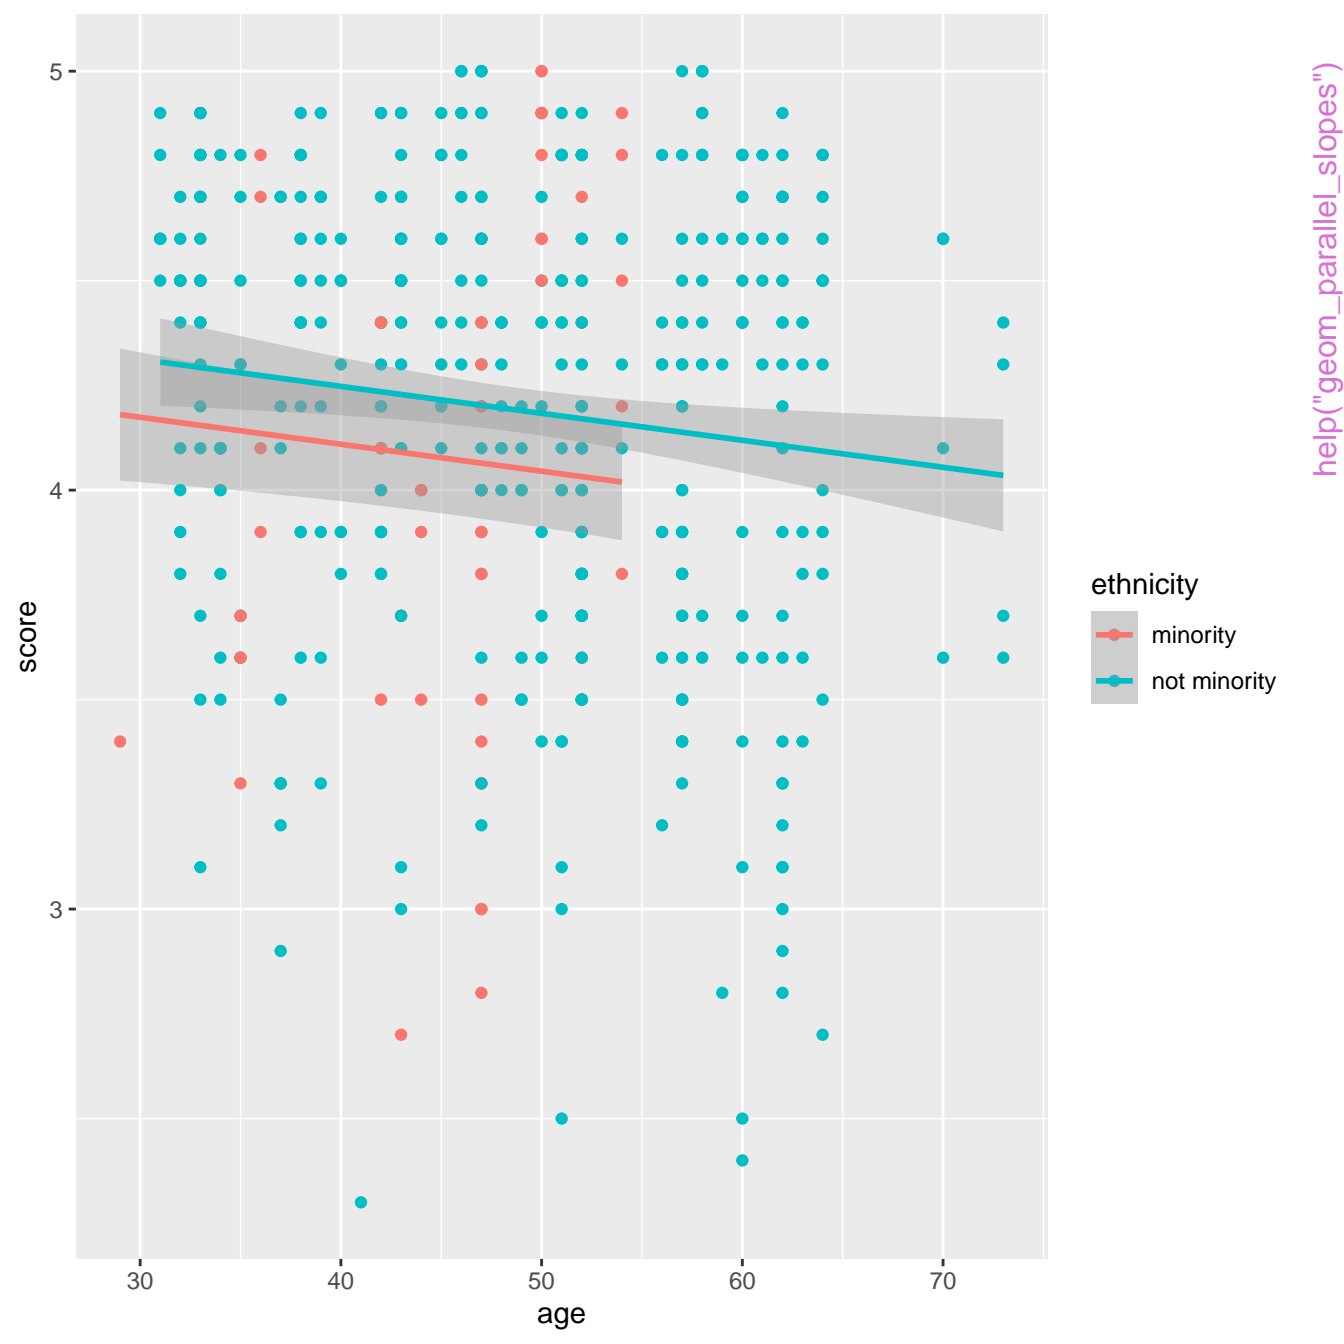

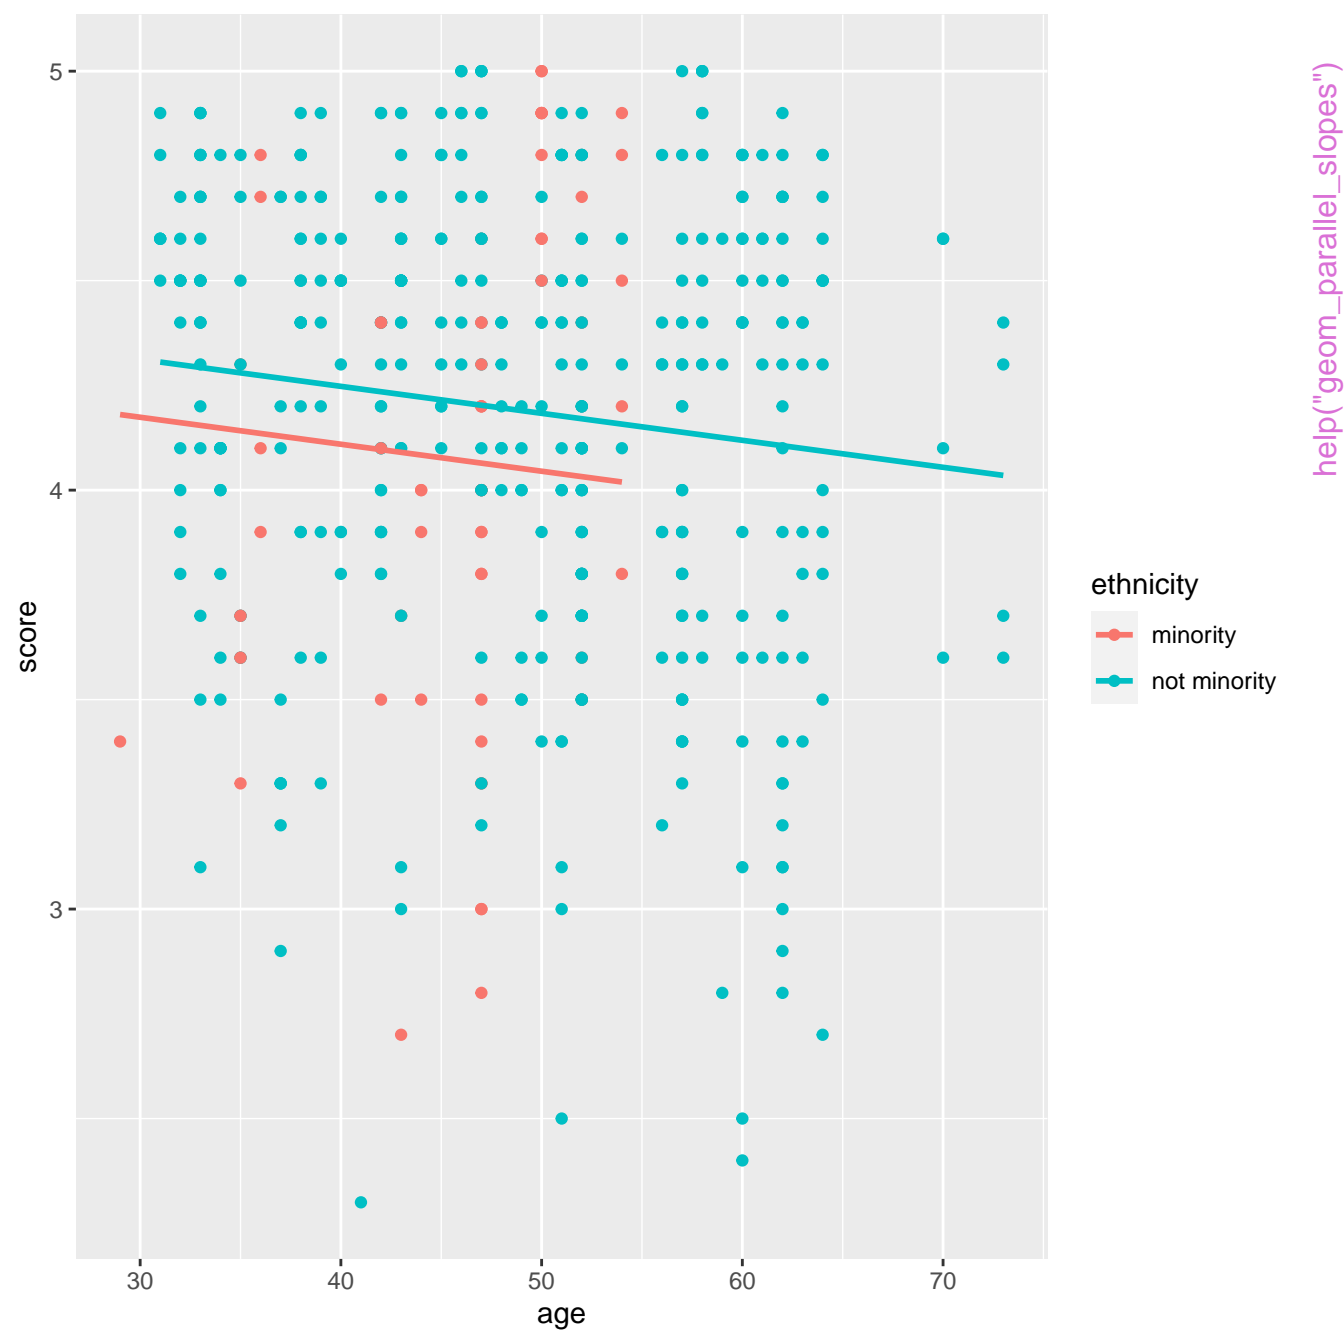

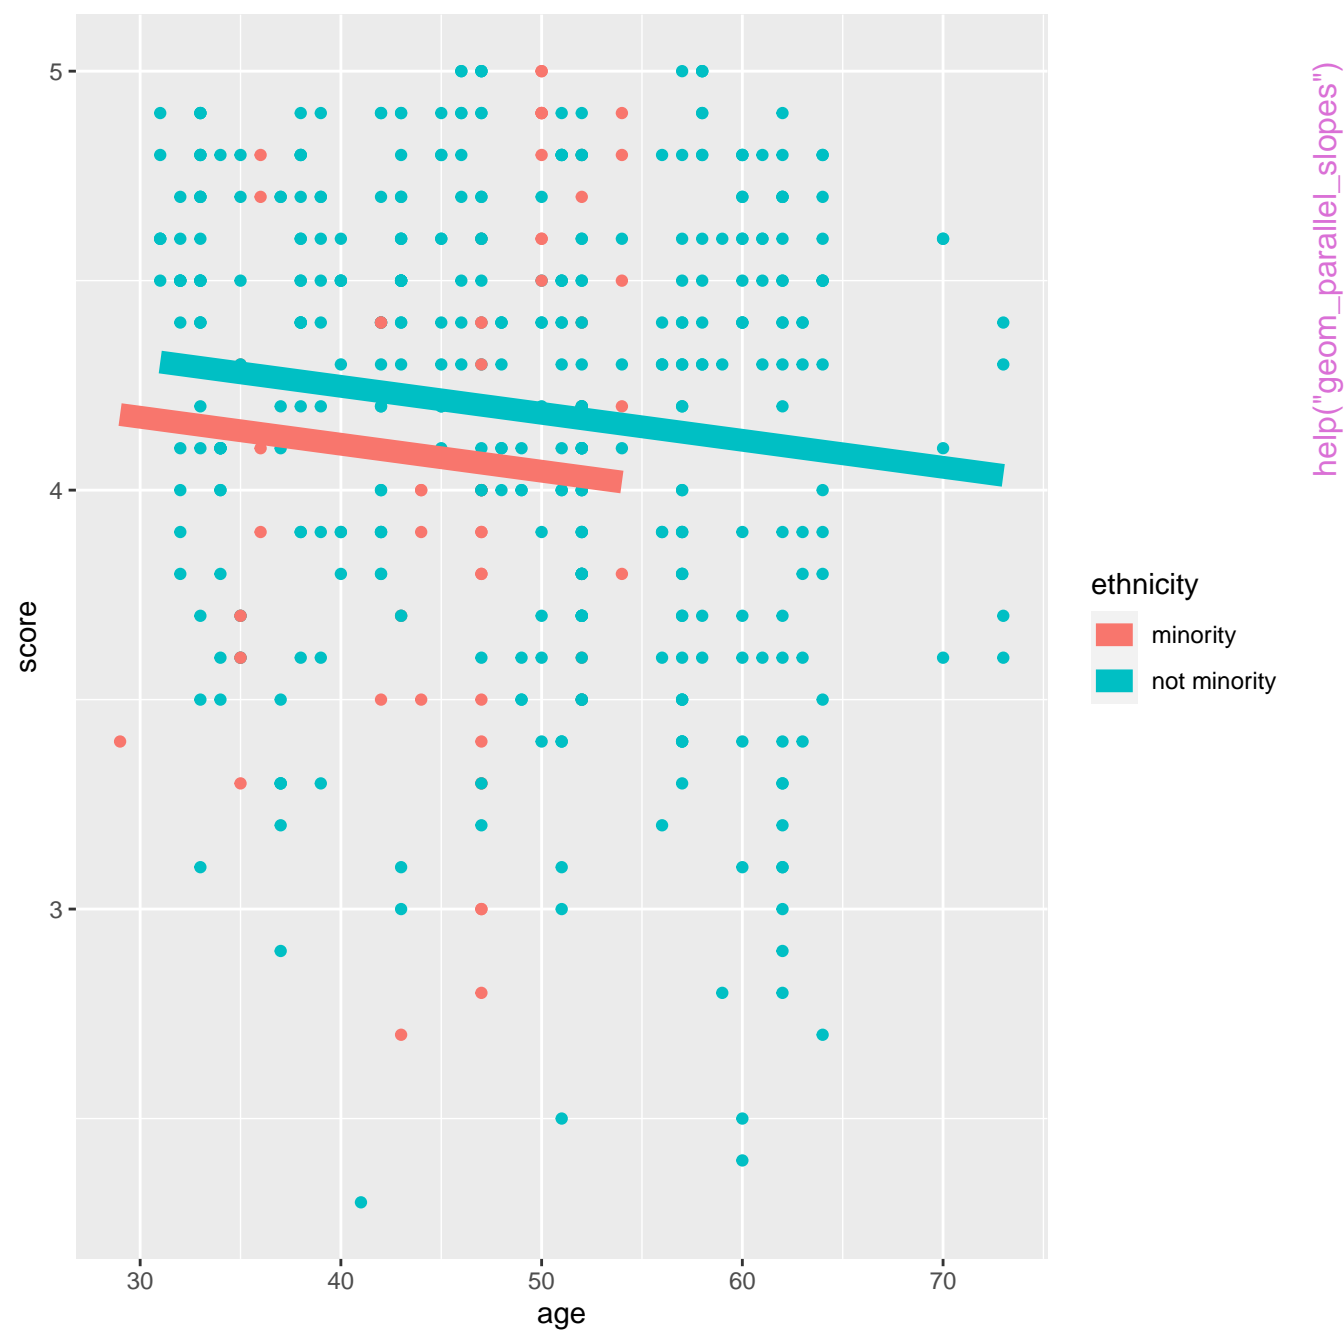

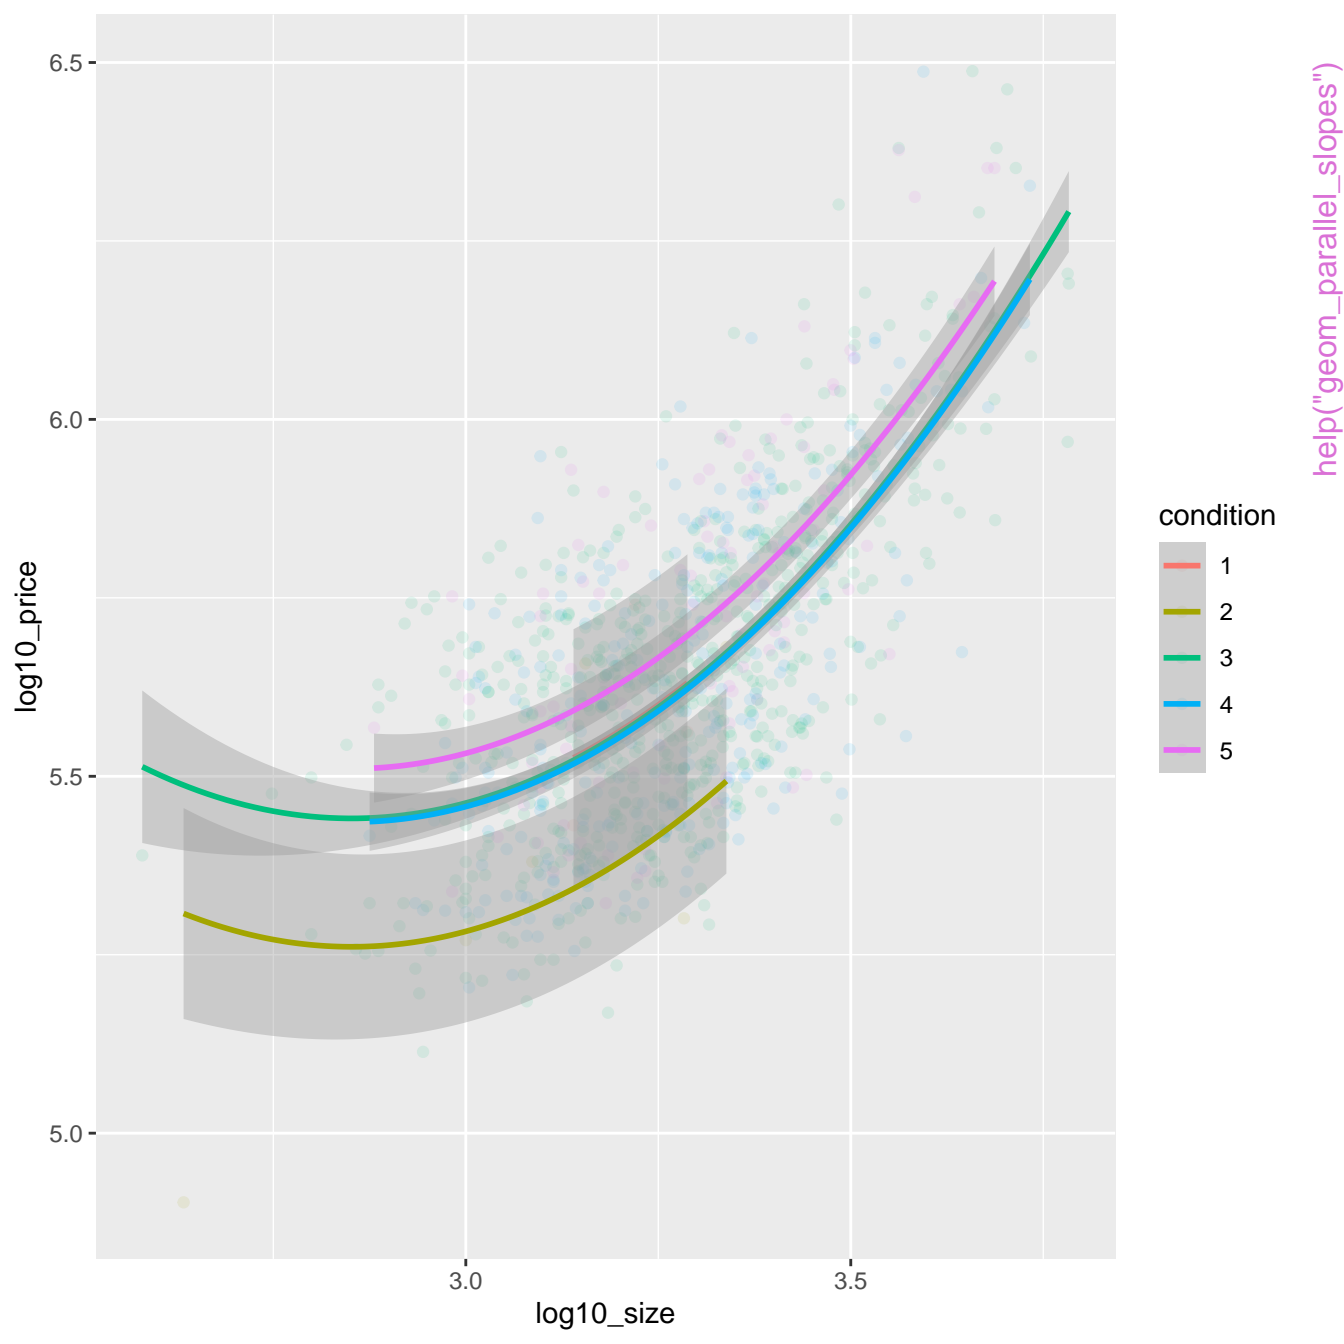

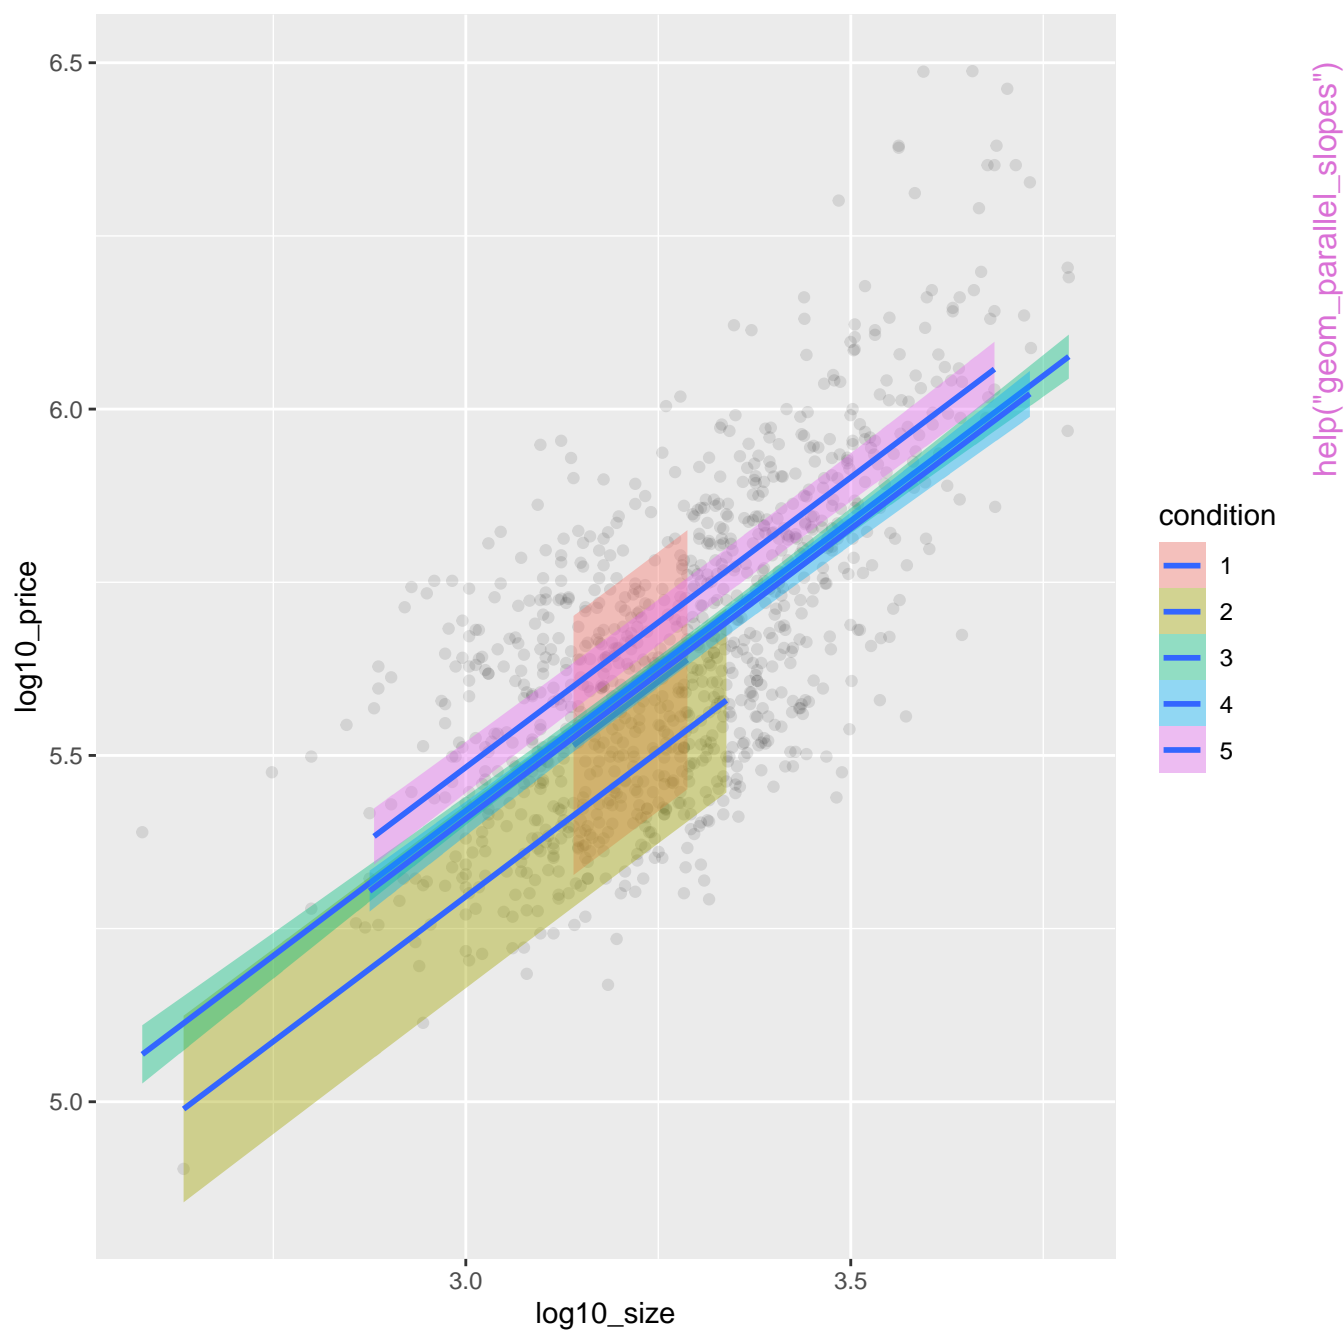

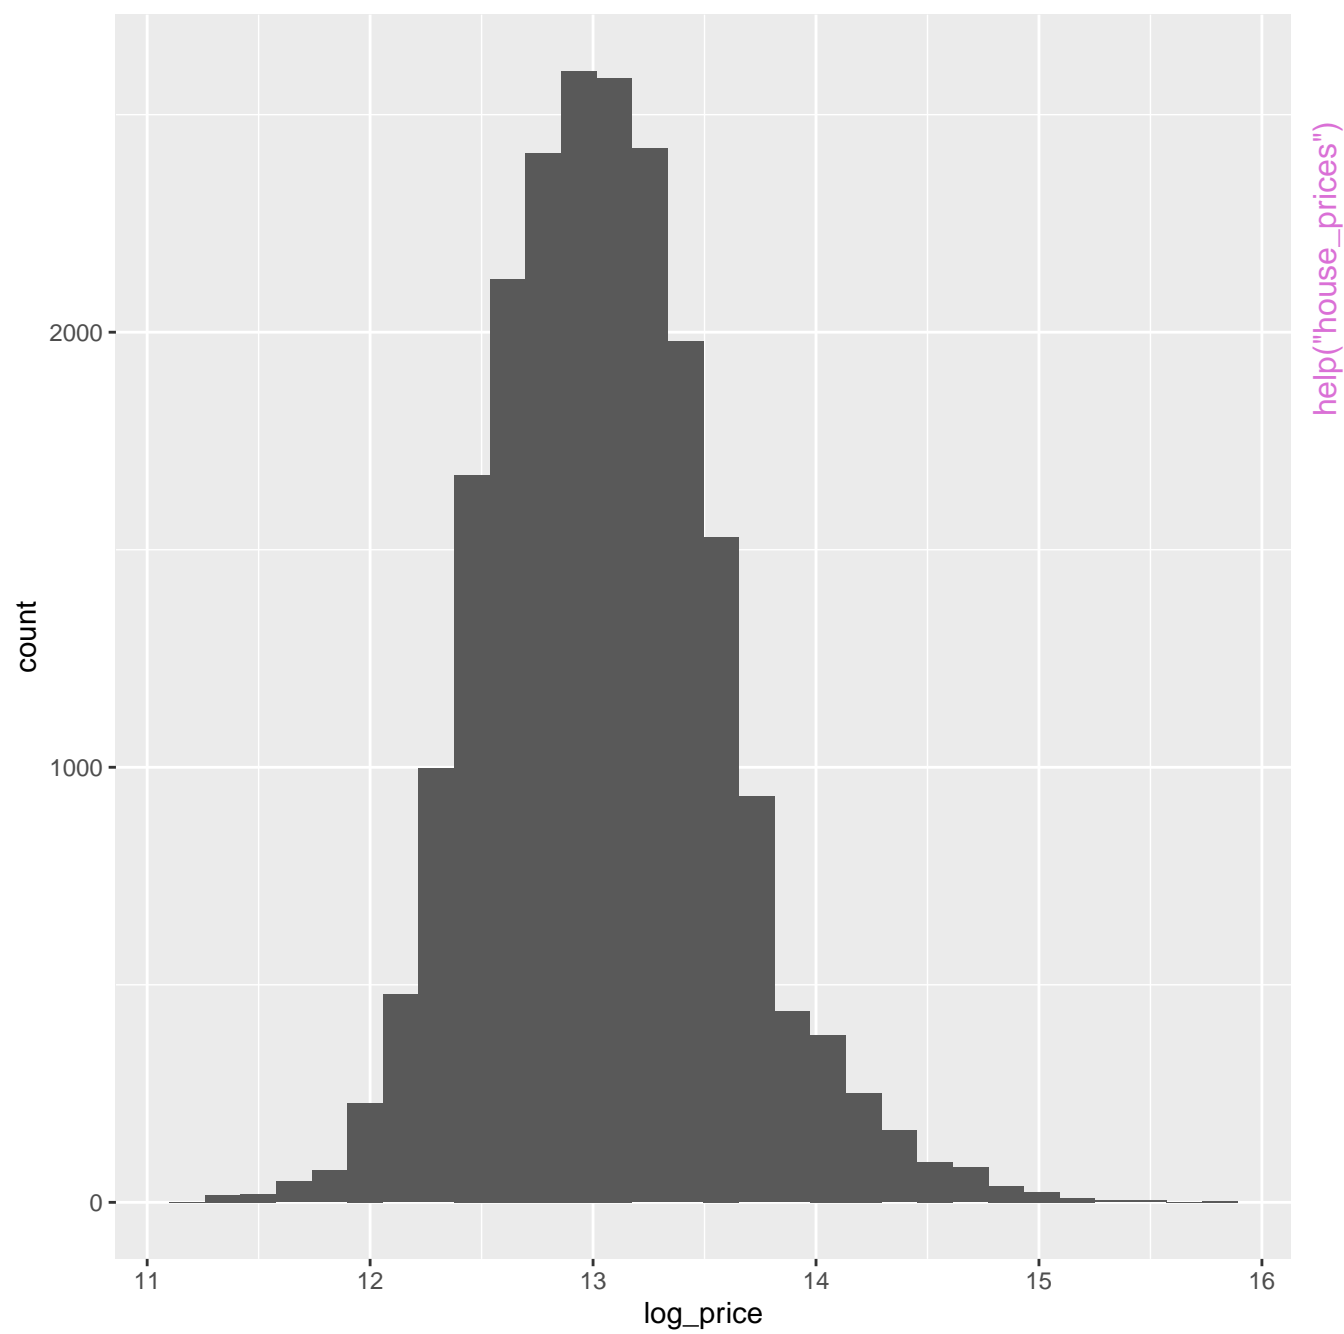

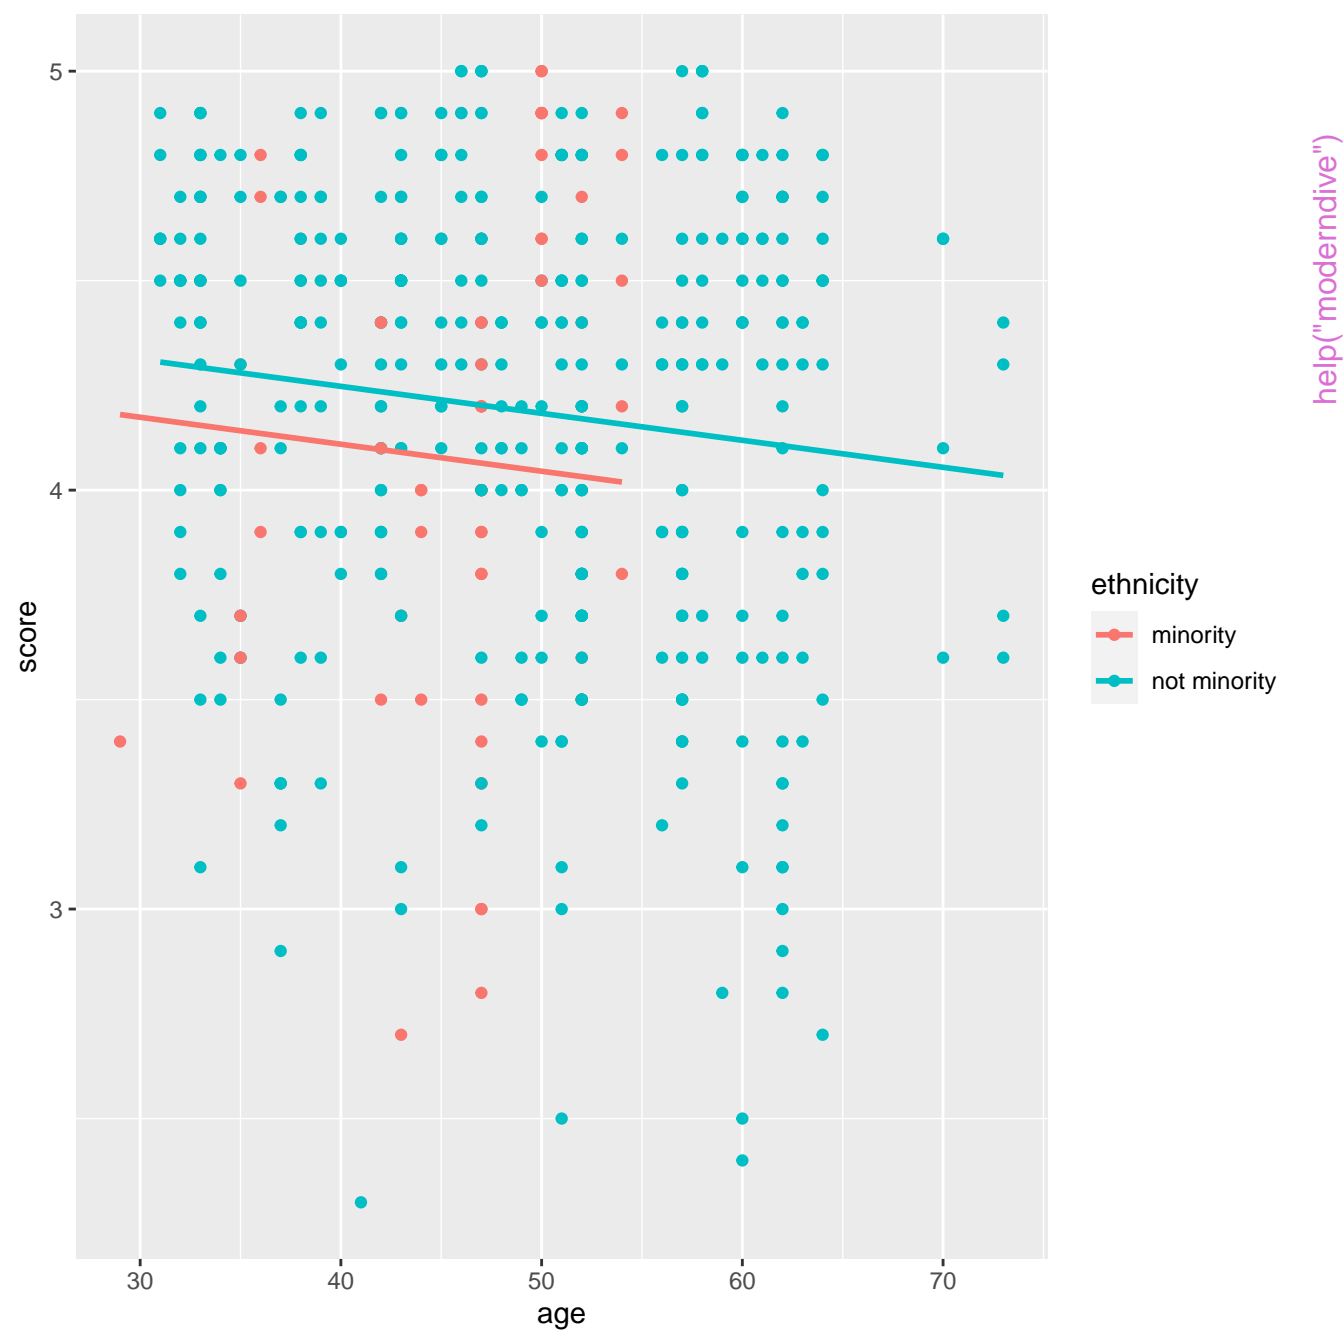

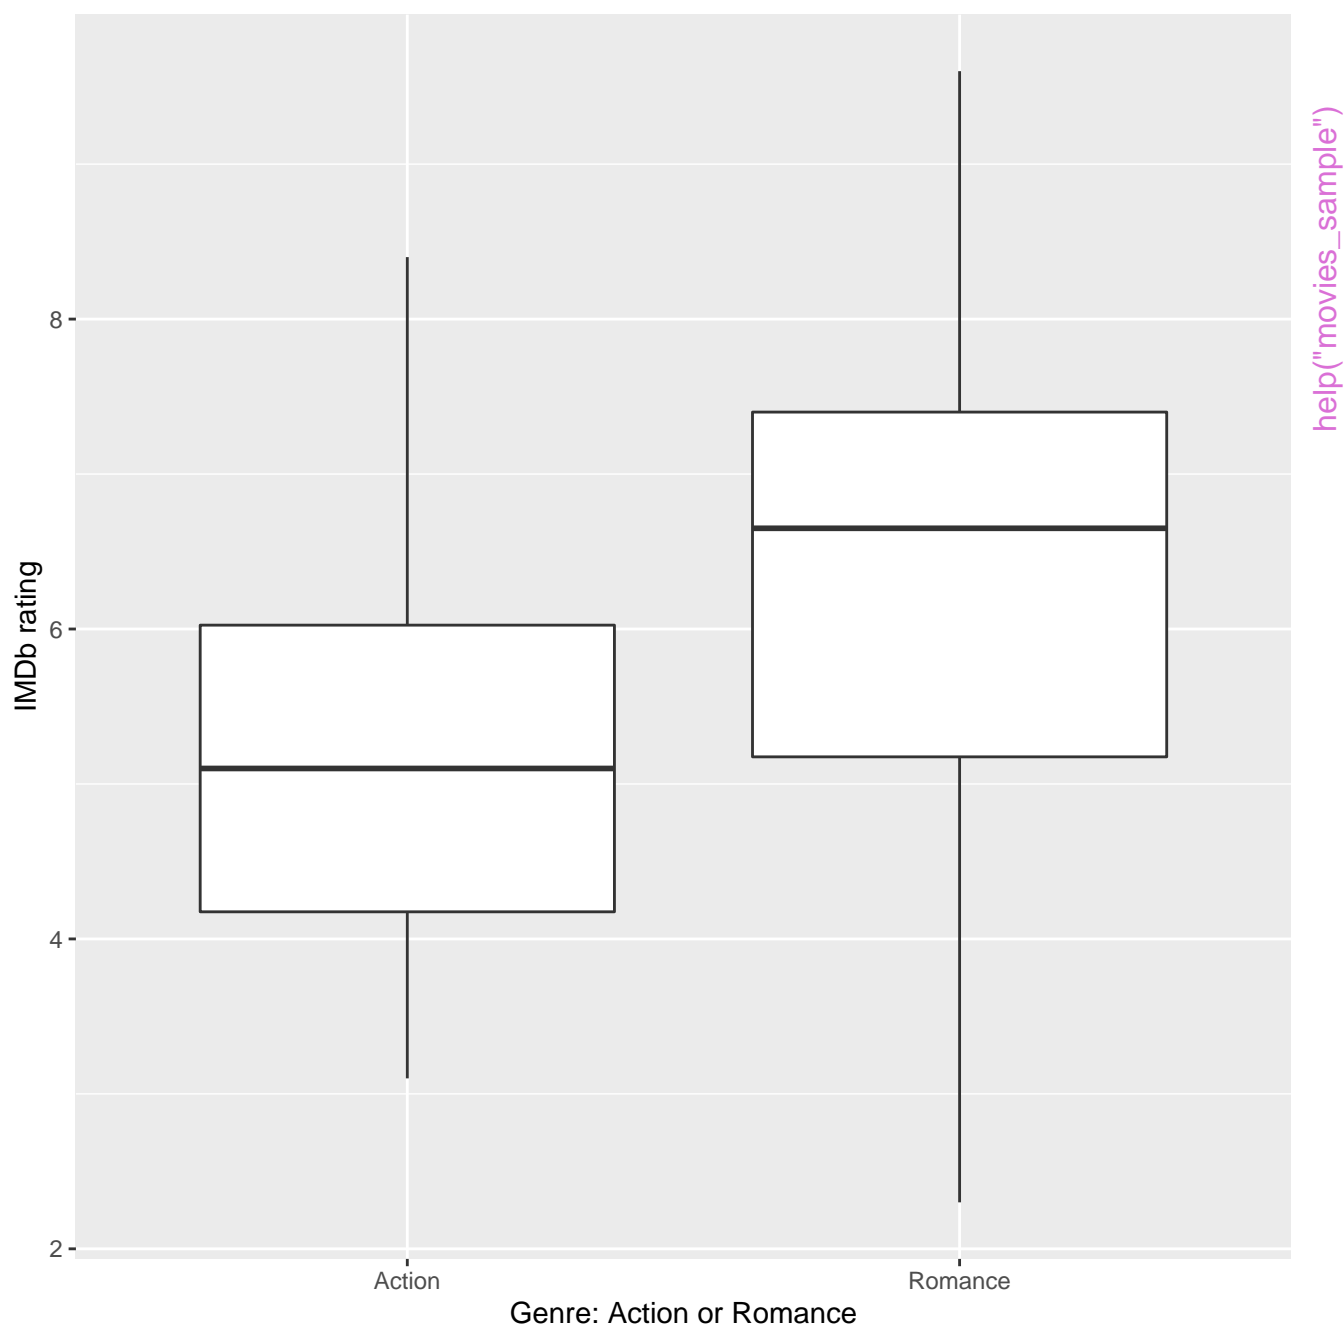

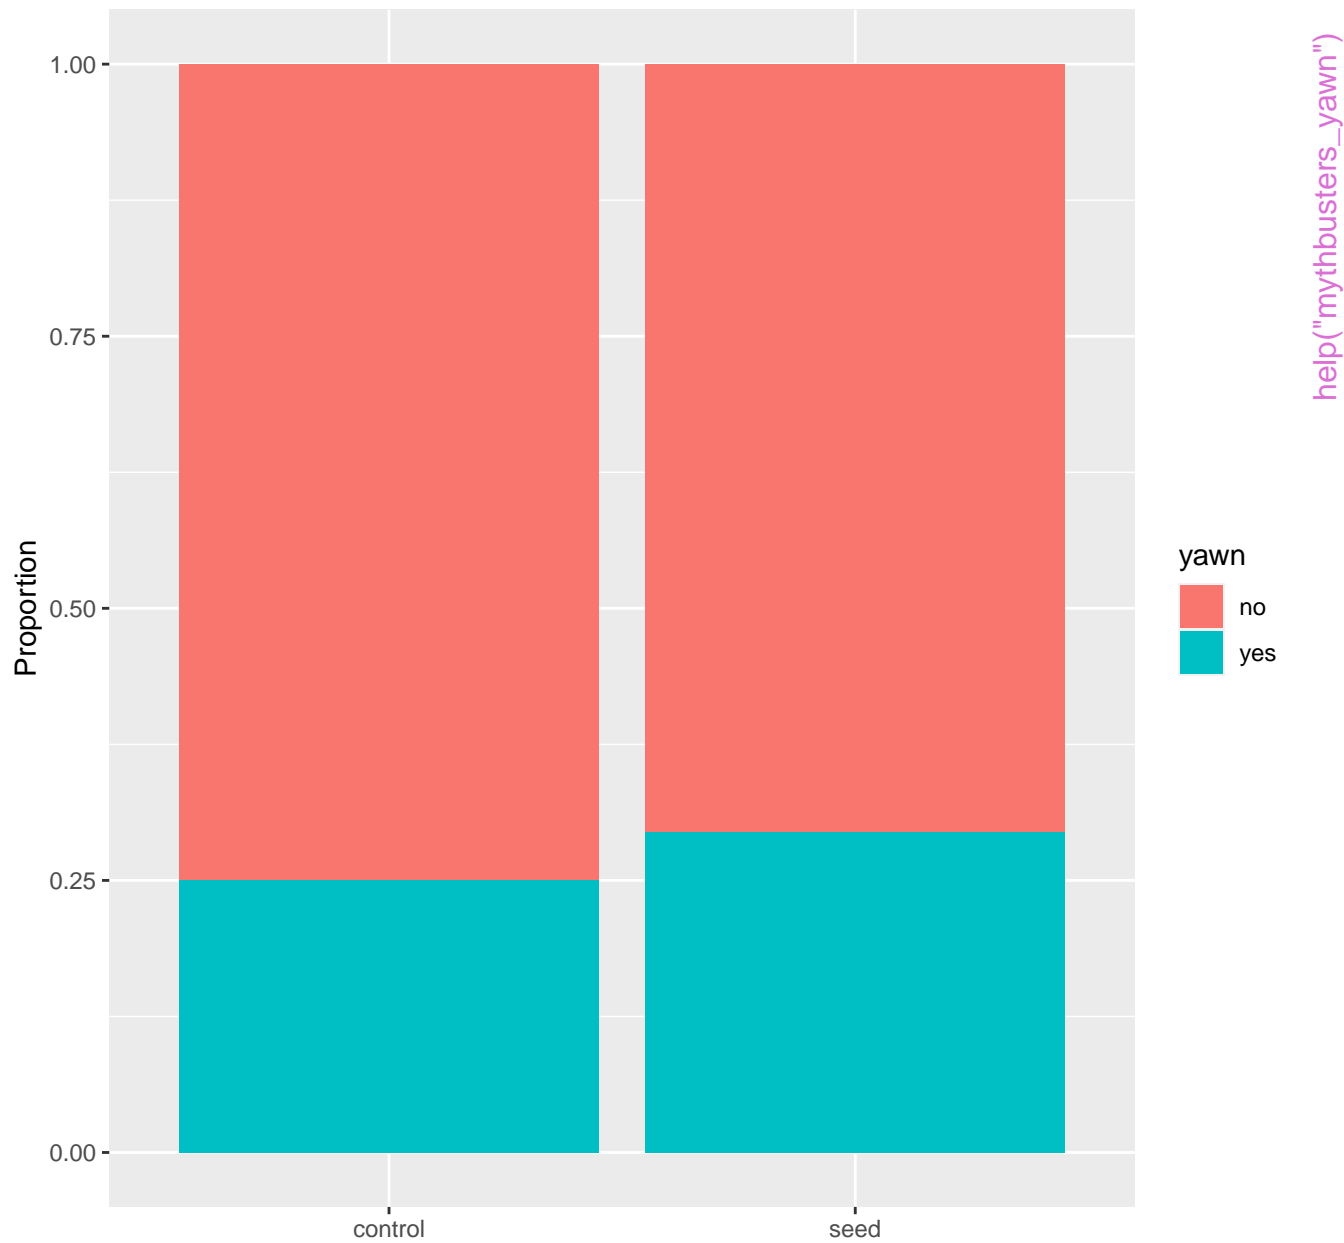

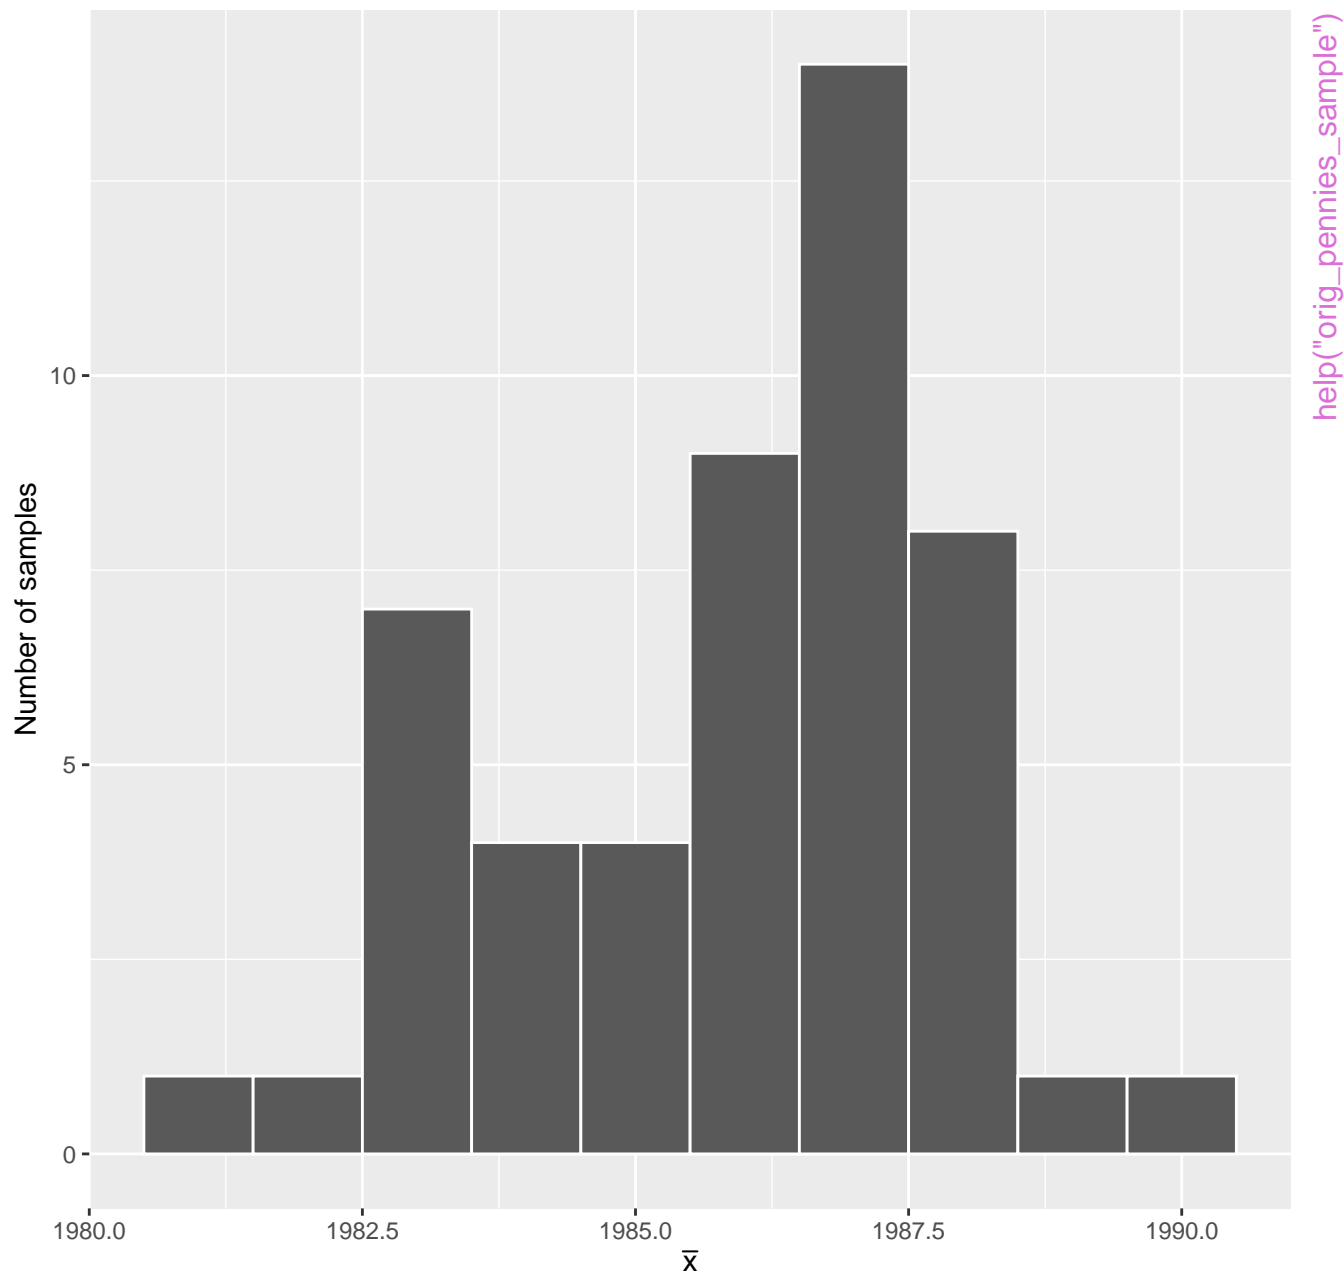

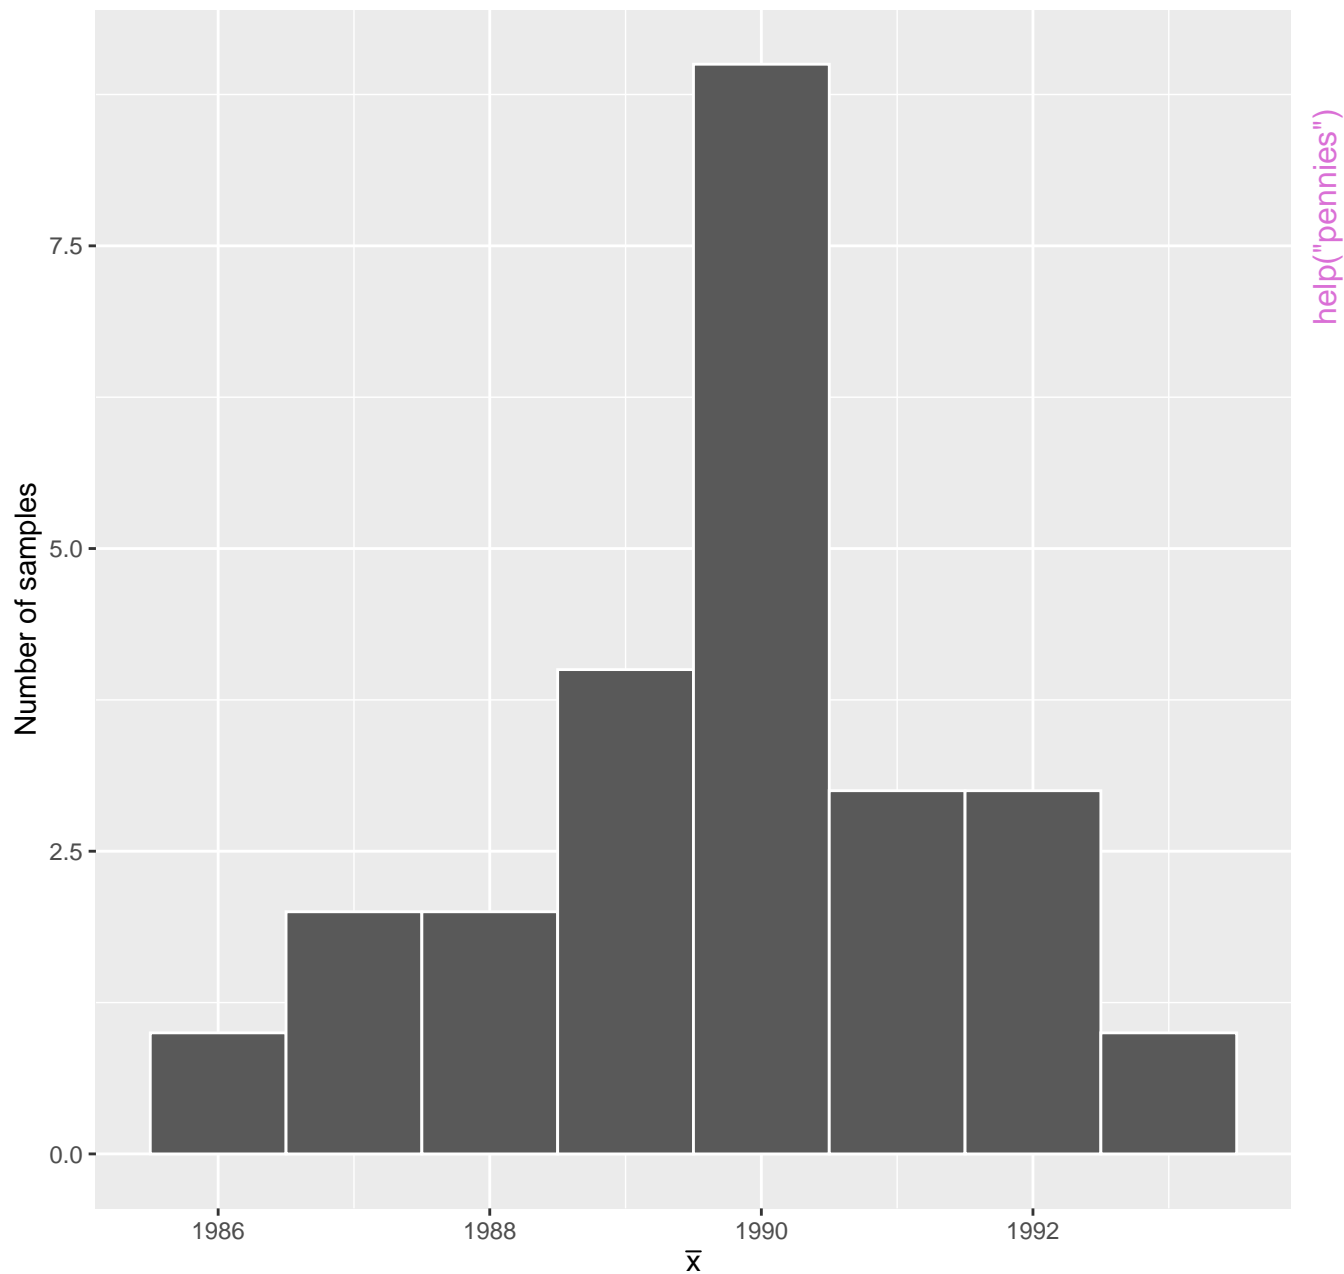

Proportion of yawn and not yawn for each group

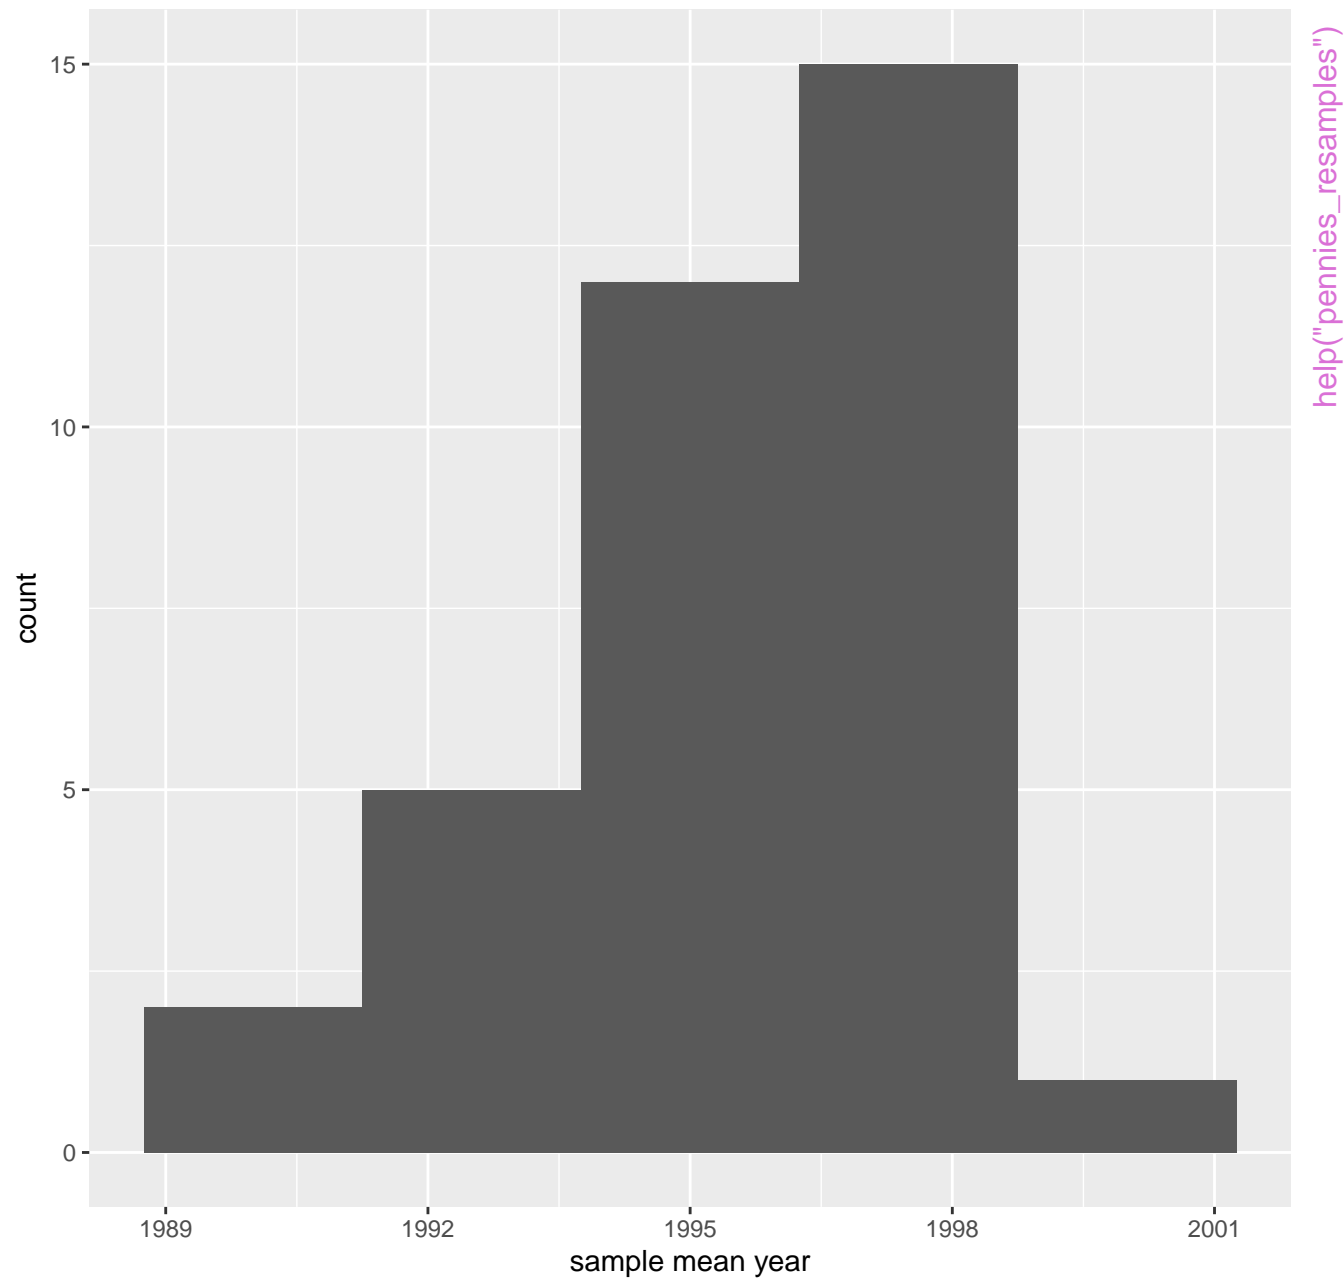

Bootstrap distribution of \bar{x} based 50 resamples of size $n = 40$

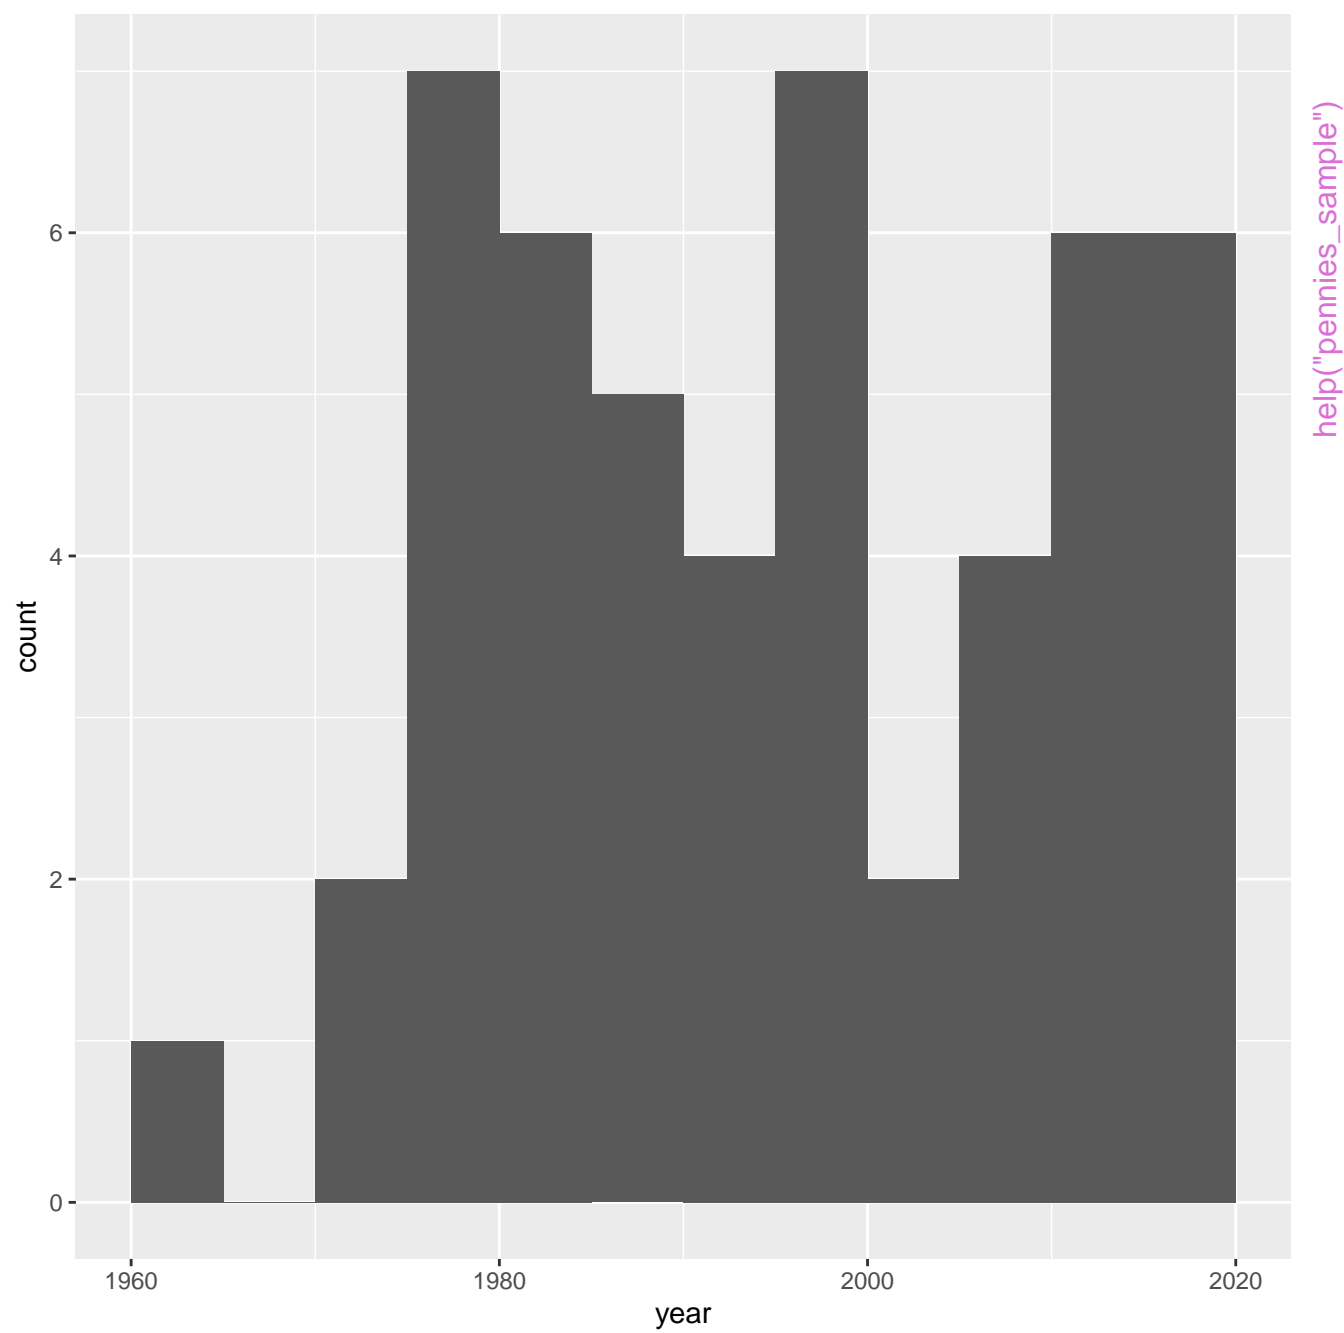

Sampling distribution of \bar{x} based 25 samples of size $n = 50$

Bootstrap distribution of sample mean year

Sampling distribution of \hat{p} based 33 samples of size $n = 50$
